

AridDek®

Waterproof Deck System

The innovative tongue-in-groove design of the AridDek® Waterproof Deck System creates a seamless single layer surface with an integrated hidden gutter system that channels water away from your structure to create a beautiful, low-maintenance deck surface with usable dry outdoor space below.

AridDek is engineered to create a completely watertight deck surface. The easy-to-install, low-maintenance deck drainage system doubles your outdoor living area in one application.

AridDek®

Perfect Your Outdoor Living Space With The AridDek® Waterproof Deck System

SAFETY: The AridDek Waterproof Deck system has been tested and certified for fire safety specifications.

FINISH: A low-maintenance, powder coated finish that is slip resistant and provides traction in wet or dry conditions.

STAYS COOLER TO THE TOUCH: Aluminum deck boards stay cooler to the touch than traditional deck materials.

DURABLE: Will not split, decay, crack, or rot; will not become brittle in extreme cold.
